SMARTER TV

SWITCH TO STREAMING

Smarter TV is a smarter way to watch your favorite TV shows and movies (including live TV) by switching from traditional cable to streaming plys, you'll save money. You are able to take control of the content you want to watch, on the devices you want to use, without being tied down to an outdated cable package. You decide what you want while having Burlington Telecom's fast fiber internet. Plus, we can help you with every step of the way! From choosing a streaming service to helping you pick your streaming device, in-person assistance and setup. We are here to help as your trusted technology partner!

What

Smarter TV is an initiative Burlington Telecom created to help customers confidently switch to streaming over traditional cable.

Why

Switching to streaming not only gives you the freedom to watch what you want to watch without being locked into a contract, it also helps you save money!

How

Our employees can help you decide on a streaming service that works for you, what your savings will be and provide you with the resources you need to get started.

HOW TO SWITCH TO STREAMING

Step One: A Reliable Internet Connection

The first thing is an internet connection and Burlington Telecom's blazing fast fiber internet can get you connected for an optimal streaming experience. We offer multiple speed options for all budgets. For example, if you stream often, have multiple devices and internet users in your home, a Gig would give you the best streaming experience. Our team is happy to help you choose the right speed for you!

Step Two: Streaming Device(s)

Next, you will need a dedicated streaming device like a Roku, Amazon Fire stick, an Apple TV, etc. However, you may already have technology that is capable of streaming, like a smart TV. Not to mention that you can stream on your computer and smartphone!

Step Three: Choose Your Streaming Service(s)

Next, it's time to choose your services. The channels you want may be available on multiple services, allowing you to make the choice you want with a subscription you choose. Some services come with live tv on top of a library of shows and movies you can watch anytime, while others have sports packages so you never miss a game, and some even include local channel broadcasts so you can stay in the know with local news and events. Visit suppose.tv in your preferred web browser to get started!

Schedule a One-On-One Smarter TV Consultation Today!

WHY YOU'LL LOVE

Burlington Telecom is a telecom provider that does things differently. We believe in treating our customers with the **respect** they deserve while providing the **best possible experience**.

Superior Customer Service

Customers love our team! We strive to give everyone superior, friendly service from our awesome local crew! From customer service, to help desk, technicians & more!

Fiber-Fast Speeds

Consistent fiber-fast speeds! Our customers agree! Our state-of-the-art fiber network can meet all of your internet needs. No throttling or data caps, just fast symmetrical internet!

Straight-Forward Pricing

Our pricing is simple! Our customers know it too. We do not offer gimmicky pricing or multi-year residential contracts. There are no hidden fees. No games. No tricks.

Trusted Tech Partner

We are your local technology partner! Let us help you cut the cable cord and switch to streaming. Save like many of our customers have done! We are here every step of the way.

Home Internet You Can Count On

BT's symmetrical fiber internet is perfect for buffer-free and lag-free streaming, gaming, downloading, surfing, video chatting, and everything Internet! It's super-fast, super-consistent, and super-reliable

1 Gig | 300 MB | 150 MB | + Smart Wifi Add-On

We also offer discount programs for qualifying applicants!

Set Your Business up for Success

Our local business experts work with you to tailor communication solutions that meet your business needs, with speed, options, and services that are scalable to your future growing demands.
