

## Burlington Telecom Expands Fiber Network

*Includes South Burlington, Essex Junction, Winooski, and Shelburne*

**December 5, 2024, Burlington, VT** – Burlington Telecom (BT), a leading provider of multi-gig, high-speed broadband and phone services, proudly announces the continued expansion of its 100% fiber network. Additional areas in the communities of South Burlington, Essex Junction, Winooski, and Shelburne will have access to BT’s exceptional services. Approximately 6,000 new residences and businesses will have access to BT’s network.

BT’s commitment to exceptional customer service and quality products remains at the forefront of this initiative. With over 300 Google reviews averaging 4.5 stars, BT prides itself on offering best in class customer service, straightforward pricing—no multi-year contracts, hidden fees, speed throttling, or data caps. Additionally, BT provides a self-funded Internet Assistance Program to ensure that all consumers, including those facing financial hardships, have access to internet services.

“Our team works and lives locally and is dedicated to providing a great customer experience over our high-quality fiber network,” said Michael Loucy, President and General Manager of Burlington Telecom. “Since beginning our expansion outside of Burlington, we’ve invested \$16+ million in our communities with more planned. Our technology not only promotes sustainability by reducing our carbon footprint but also contributes to the growth and economy of Vermont.”
